

## Abstract Phytowelt GreenTechnologies GmbH – EIHA Conference 2018

New technologies in plant breeding enable Phytowelt to customize tailor-made hemp varieties for you. How to realize the customized CBD and/ or THC content in your non-GMO hemp variety, Peter Welters, CEO of Phytowelt GreenTechnologies GmbH, will present in his talk.

Phytowelt is acting since 20 years in the field of contract research and development in plant and industrial biotechnology with an experienced team in Cologne and Nettetal. The optimization of plants and accelerated breeding processes for a broad portfolio of plant varieties is one of the core competences of Phytowelt.
